SoundsNEW

The Letter centers around the idea of constructing an electro-acousmatic work using sampled sound of various writing implements, the samples are transformed and reborn as distinctively new materials so oddly different from their origins, which in turn shape the textural and gestural approaches of the piece." ✦ TransSonic Awakenings in D (excerpt) is a 2-channel, fixed-media composition that is inspired by the sound and sense of worldwide, shortwave radio transmission. This excerpt concludes with a sonic, radio station "call sign," typically heard at the beginning of a broadcast to allow for proper receiver tuning. ✦ Alien Invasion: An idea for a time during an invasion of earth by the aliens. ✦ Midnight Glowing on Horseback juxtaposes surrealist ideas and classical formal structures within its left to right time-based electronic playback. The audio events combine and mix samples of ordinary objects, instruments, synthesized sound, and Salvador Dali discussing his moustache. This slightly bizarre mix of elements, rarely all that jar-

ring, and maybe nonsensical combine to conjure a mental image – midnight glowing on horseback? – or perhaps to merely create an awake dream. ✦ When Space Comes a Callin' was created in March of 2019 using Studio One 4 ✦ Canticles: This musical work represents the recovery and attempts at restoration of fragmentary, charred remains of the writings of a rebel leader in a fictitious American civil war to have happened at some time in the future; a time at which divergent political and cultural forces have descended into violent national conflict. ✦ Street Scene: St. Charles Avenue: Processed sounds recorded on a cell phone during a streetcar ride on St. Charles Avenue in New Orleans." ✦ When I am Dead features a sonic landscape using synthetic textures and the live narration of the poem, When I am Dead, My Dearest. ✦ Inspired formally by the elliptical orbits associated with long-period comets, WOOSH is divided into two parts: Part One explores abrupt, visceral changes in gestural noise, dynamics, and stereo spatialization, while Part Two focuses on timbral counterpoint and the superimposition of thick, slow-moving, granulated textures.

Tianyi Wang's music aims to deliver the unspeakable; to explore the unknown; to seek what it means to be human. Website: <https://www.tianyiwangmusic.com/> ✦ Dr. Douglas Hedwig taught at The Juilliard School and is Professor Emeritus of Music at Brooklyn College. His fixed-media and electronic works have been broadcast worldwide by Radiophrenia (Scotland), and the Wave Farm (WGXC, NY). In August 2019, he will be composer-in-residence at Siena Art Institute (Italy). <https://douglashedwig.com> ✦ Biraj Adhikari (b.1997) is an Interna-
